

ABA: 79541439

A posterior

The image displays a cross-sectional brain scan, likely an MRI, with a color scale ranging from black to blue. A prominent, bright blue spot is visible in the lower-left quadrant of the brain, indicating a focal area of high signal intensity. The rest of the brain tissue shows a more uniform, lower-intensity blue color. A white crosshair is overlaid on the image, with the vertical line passing through the center of the brain and the horizontal line passing through the level of the focal spot. The text 'ABA: 79541439' is located at the top left, and 'A posterior' is at the bottom left.
